Southern Indiana Small Schools Coalition

Nine southern Indiana school districts are joining forces to discuss problems and potential solutions related to the Covid-19 Pandemic. A joint focus will be placed on re-entry procedures for safe and effective “in-person” instruction for the 2020-21 school year. The coalition currently includes administrators from East Washington School Corporation, Salem Community Schools, Paoli Community Schools, Springs Valley Community Schools, Orleans Community Schools, North Harrison Community School Corporation, South Harrison Community School Corporation, Scott County School District 2 and Lanesville Community Schools. The coalition will expand membership based upon interest from other districts. Representatives from Butler University will contribute as thought partners exploring strategies for the safe re-entry of students and staff for the fall semester.
