The School Board authorizes the creation of websites by third parties, employees and students of the School Corporation to be published on the World Wide Web. The creation of websites by students must be done under the supervision of a professional staff member. Further, student-created websites are subject to Policy 5722 - School-Sponsored Student Publications and Productions.

The purpose of such websites is to educate, inform, and communicate. The following criteria should be used to guide the development of such websites:
